Introduction

The Metropolitan Transportation Improvement Program (MTIP) is the official transportation investment schedule for state and federally funded surface transportation projects planned for the Greensboro Metropolitan Area. Key MTIP facts are as follows:

- The Greensboro Urban Area Metropolitan Planning Organization (MPO) works with the North Carolina Department of transportation (NCDOT) and the Greensboro Transit Authority (GTA) to develop the MTIP on a bi-annual basis.
- The MTIP covers a seven-year period and includes: highways, public transportation, rail, bicycle and pedestrian facilities, and transportation enhancements. A small amount of state-funded aviation investments are also listed.
- The MTIP covers most of Guilford County with the exception of Gibsonville, High Point, Jamestown, and Whitsett.
- This revised version of the FY 04-10 MTIP document has been approved by the Greensboro MPO for use by NCDOT in developing the final Statewide Transportation Improvement Program (STIP).

This document is intended to satisfy NCDOT's need for an approved version of the MTIP in order to proceed with final development and adoption of the STIP. Although a new Air Quality Conformity Analysis is not anticipated, final adoption of the MTIP is contingent upon a Finding of Conformity with the adopted Long Range Transportation Plan and the current Conformity Analysis. The NCDOT Program Development Branch and Public Transportation Division have concurred that this approval action by the Greensboro MPO will meet state needs. Final MTIP adoption is anticipated in or around July, 2003, following completion of the Conformity Finding.

A draft version of this document has been circulated and made available to inform the public about the transportation project schedule and the MTIP development process and to provide the opportunity for interested citizens to submit comments. Public comments on this draft were accepted by the MPO between Friday, December 20, 2002 and Monday, February 3, 2003. Public comments have been considered by the MPO in further developing the MTIP; and have been shared with NCDOT and GTA.

This document has been revised to include changes in TIP projects and schedules and additional informational materials, as well as to incorporate public comments received and MPO responses. This Revised MTIP will be made available on the MPO website in, prior to final adoption by the Transportation Advisory Committee.

The MTIP FY 2004 – 2010 development process includes the following steps:

- **MPO Priority List:** On December 11, 2001, the MPO Transportation Advisory Committee adopted a list of official MTIP priorities. TCC began the process in Fall 2001 with a review of area transportation needs and policies. TCC work culminated with a draft needs list that was reviewed by the TAC on November 14, 2001.
- **MPO Priority Session:** In February 2002, TAC officials and MPO staff met with NCDOT representatives to discuss state transportation funding issues, the status of major projects in the MPO area, and MPO Priorities and requests for program changes.

Introduction

- **Draft State TIP Supplement for the MPO Area:** In June 2002, NCDOT provided the MPO with tentative project commitments and funding schedules for all TIP programs. NCDOT considered MPO priorities in preparing this material, and drew on the current and expected state and federal transportation funding allocations at its disposal for this purpose.
- **NCDOT Division 7 Public Meeting:** Held October 23, 2002 at the Lake MacIntosh Marina in Burlington from 2:00 to 4:00 p.m. This meeting was designed to provide information about and seek comments on the Draft State TIP relative to Highway Division 7. For a copy of public comments heard at this meeting, pertaining to the Greensboro Urban Area MTIP and the MPO's responses, please see the Public Comments section.
- **Draft MTIP Public Meeting:** On December 10, 2002 in the Tannenbaum-Sternberger Room of the Greensboro Public Library, 219 N. Church Street, the MPO held a public meeting regarding the Draft MTIP. The meeting began with an open house session 5:00 pm, followed by an informational presentation at 5:30 pm, and a question / comment period at 6:00 pm.
- **Draft MTIP:** The Draft MTIP Document was made available for review and comment from December 20, 2002 to February 3, 2003 at: the offices of Guilford County Commissioners, Greensboro City Clerk, Greensboro DOT, NCDOT Division 7; the NCA&TSU Student Union, the UNC-G Library, and all Greensboro Public Libraries. The Draft MTIP was also available by visiting the MPO website at: (<http://www.ci.greensboro.nc.us/gdot/planning/mpo>) or by calling the Greensboro DOT at (336) 373-2332. Written comments on the Draft MTIP were to be submitted by February 3, 2003.
- **MTIP Negotiation Meeting:** This meeting between the MPO and NCDOT officials was held on February 24, 2003, and involved the discussion of needed changes to projects and/or project schedules. For a list of project changes made since the release of the Draft 04-10 MTIP, see the list of changes later in the introduction.
- **Approval of Revised MTIP for State Purposes:** On April 23, 2003, the TAC approved the Revised MTIP for State purposes. The Revised MTIP reflected updates to the expected program of projects, and incorporated public comments received and MPO responses thereto.
- **Conformity Determination Process:** To ensure that the new MTIP meets the requirements of 40 CFR 93.122 (e), the Statewide Interagency Consultation Team convened on April 7. The purpose of this meeting was to review the Revised MTIP and articulate initial comments. These comments and the MPO's responses have been included in the Conformity Determination Report, which will be submitted along with the MTIP to FHWA, FTA, and EPA for final federal review and approval. The Conformity Determination Report certifies that the MPO and the NCDOT have satisfied all air quality conformity requirements under federal law. The Conformity Determination Report is intended to state whether the MTIP as revised, is consistent with the adopted Long Range Transportation Plan (LRTP) and current Air Quality Conformity Analysis, thereby demonstrating that the area will be able to attain the highway vehicle "emissions budget" for key contributors to ground level smog, including Ozone, Nitrogen Oxides, and Volatile Organic Compounds. The Conformity Determination Report was made available for a public review and comment period from May 21, 2003 through June 20, 2003.
- **Final MTIP Adoption:** On the currently anticipated schedule, the Transportation Advisory Committee will adopt the MTIP in or around June, 2003, following a finding that the MTIP is in conformity with the adopted Long Range Transportation Plan and the current Conformity Analysis. Based on a review of the Conformity Determination Report by the Interagency Consultation Team, no project changes have occurred in the final MTIP that would necessitate a new Air Quality Conformity Analysis. Accordingly, it is anticipated that the LRTP and the Conformity Analysis currently in effect will remain valid for the adoption of the 2004 – 2010 MTIP.

Introduction

- **State TIP adoption:** The State Board of Transportation will adopt the Statewide Transportation Improvement Program FY 2004 – 2010 in July, 2003. This official statewide project schedule will incorporate the Greensboro MTIP, as well as those of the 16 other MPOs in the state.
- **Effective Date of the 2004 – 2010 MTIP:** The FY 2004 – 2010 MTIP will go into effect on October 1, 2003, the first day of federal fiscal year 2004.

Note on Air Quality Conformity: As a maintenance area for ground-level ozone, the Greensboro Urban Area is engaged in an ongoing cycle of documenting conformity to applicable air quality regulations and the Clean Air Act Amendments of 1990. The MTIP FY 2004 – 2010 and the 2025 Long Range Transportation Plan Update comply with applicable conformity criteria specified in 40 CFR Part 93. This conformity is documented in *Conformity Analysis Report and Conformity Determination for the Greensboro Urban Area 2025 Long Range Transportation Plan*. This document demonstrates compliance with each applicable requirement including the following, listed at §93.109:

- latest planning assumptions;
- latest emissions model;
- consultation; and
- consistency with applicable emissions budgets.

About the MPO

The **Greensboro Urban Area Metropolitan Planning Organization** is the officially designated body responsible for administering the transportation planning process required under Federal Law. The MPO plans for area surface transportation needs including highways, transit, bicycle, and pedestrian facilities.

Priority **goals** of the MPO include:

- Promote the safe and efficient management, operation, and development of transportation systems;
- Serve the mobility needs of people and freight;
- Foster economic growth and development; and
- Minimize the negative effects of transportation including air pollution.

The Greensboro metropolitan **planning area** includes most of Guilford County. The MPO serves the City of Greensboro, much of unincorporated Guilford County, and the Towns of Oak Ridge, Pleasant Garden, Sedalia, Stokesdale, and Summerfield. Gibsonville, Whitsett, and nearby unincorporated areas are served by the Burlington-Graham MPO. While High Point, Jamestown, and nearby unincorporated areas are served by the High Point Urban Area MPO.

The Greensboro Department of Transportation (GDOT) is the **Lead Planning Agency**, of the MPO, while the City of Greensboro, Guilford County, and the North Carolina Department of Transportation are member agencies. The **Transportation Advisory Committee** is the MPO's Policy Board and is currently comprised of the following officials:

- Sandy Carmany, TAC Chair, Greensboro City Council
- Keith A Holliday, Mayor, City of Greensboro
- J. Douglas Galyon, Chair, NC Board of Transportation
- Bob Landreth, Commissioner, Board of County Commissioners
- Robbie Perkins, Council Member, Greensboro City Council
- Mary C. Rakestraw, Commissioner, Board of County Commissioners
- Donald R. Vaughan, Council Member, Greensboro City Council
- *Ex Officio Member*: NC Division Administrator of the Federal Highway Administration

The **Technical Coordinating Committee** serves the TAC in an advisory capacity and consists of staff from the following agencies: City of Greensboro DOT, NCDOT Division 7, Greensboro Transit Authority, NCDOT Statewide Planning Branch, City of Greensboro Planning Department, Guilford County Planning Department, NCDOT Public Transit Division, Piedmont Triad International Airport, and the Piedmont Authority for Regional Transportation (PART).

The **Piedmont Authority for Regional Transportation (PART)** is a regional partnership among four MPOs and several local governments within Alamance, Davidson, Forsyth, Guilford, Randolph, and Rockingham counties. PART's work program has two key emphasis areas at the present time: to plan for and operate a regional public transportation system; and to serve as a forum for cooperative regional transportation planning. Through PART, the MPO engages in an ongoing process of regional consultation and collaboration on issues of MPO and Triad-wide significance.

Transportation Management Area Status

Based on the results of Census 2000 published May 1, 2002, the Greensboro Urbanized Area has a population of over 200,000 and accordingly, has been designated by the Federal Highway Administration as a Transportation Management Area (TMA). The Greensboro MPO's status as a TMA brings both new

About the MPO

responsibilities and new authority to its transportation planning and programming processes. New responsibilities include: establishment of a Congestion Management System; triennial federal certification of the MPO's planning process; review, and if necessary, modification of TAC composition to include operators of major public modes of transportation; and federal rather than state approval of annual Unified Planning Program. Among Greensboro's new authorities will be: the ability to program Urbanized Area Formula Program (5307) funds through Direct Apportionment from the Federal Transit Authority; the authority to direct Surface Transportation Program Direct Apportionment funds (see the section entitled *Surface Transportation Program Direct Apportionment Funds* for more information); and additional project selection weight in development of the Statewide Transportation Improvement Program.

Transportation Funding Issues

As noted in the introduction, the Metropolitan Transportation Improvement Program (MTIP) is the official transportation investment schedule for state and federally funded surface transportation projects planned for the Greensboro Metropolitan Area. National and state transportation finance trends and issues therefore are highly relevant to project schedules and implementation. Finance issues at the state and federal level have impacted the 2004 – 2010 MTIP. These are addressed in brief below.

On February 14th, 2003, after five months of continuing appropriations resolutions, the United States Congress approved a fiscal year 2003 Omnibus Appropriations Bill covering eleven federal departments, including the U.S. Department of Transportation. President George W. Bush signed that bill into law on February 20th. The USDOT appropriation included \$31.8 billion in highway funding for fiscal year 2003. This level would have maintained the funding amount established by the fiscal year 2002 appropriation, but an across the board cut of 0.65% in the appropriations package was needed to keep the grand total within the limit agreed to among House and Senate appropriations committee members and the President. Although this measure stabilizes the federal highway funding picture at \$31.6 billion for the near-term future, uncertainty over federal highway funding will soon return, as the Congress begins debating funding levels for fiscal year 2004.

North Carolina's transportation finance picture is also relevant to Greensboro's program of projects. At the broader level, the state shortfall has prompted the Governor to withhold millions of dollars in local tax revenues, causing fiscal ripples throughout local government statewide. Highway funding issues are related to federal funding levels, but also to trends in state transportation revenues and over-programming in the STIP. Additionally recent gubernatorial and legislative actions resulted in \$375 million being transferred from the Highway Trust Fund into the State's General Fund. While this has not resulted at present in major shocks to the highway program, the impact may be more serious if similar transfers occur next year. Another issue complicating the state finance picture is that the Highway Trust Fund (HTF) is restricted to use on Urban Loops and selected Intrastate Highway projects specifically identified in N.C.G.S. § 136-179 and § 136-180. While Federal-aid Highway funds are North Carolina's largest and most reliable source of transportation revenue, they require a 20% state match. The most readily available source for this match amount is the HTF, but because Federal-aid matching is not an HTF-eligible expense, the funds must be reimbursed. The most accessible source of reimbursement in turn, is the state's Federal-aid Highway allocation. The end result is that for every dollar of HTF money used by the state as matching funds for Federal-aid Highway projects, North Carolina's total Federal-aid allocation is drawn down by one dollar. At present, approximately \$200 million of Federal-aid Highway funding is transferred into the State Highway Trust Fund for this purpose, on an annual basis. The MPO has taken a position in favor of making the required state match for federal-aid highway projects, as well as all TIP projects on the Intrastate Highway System, eligible for HTF money. The MPO is aware that future regional funding priorities such as the projects identified under the Airport Area Transportation Study will warrant HTF eligibility and will take steps to seek this eligibility following completion of the study.

About the MPO

Despite these finance issues, the 2004 – 2010 MTIP includes substantial investment in the MPO area transportation system. Total funding over the period is \$551,460,000, according to MPO analysis. This equates to an average annual investment level of \$78,780,000. The following chart identifies the percentage of total funding proposed for programming over the 2004 to 2010 period, by source. Please note that unfunded transit projects and post year highway projects are not included in this summary.

Source: GDOT Analysis

The MPO will continue to work with NCDOT and the transit operators in an effort to advance the transportation improvement program. This includes efforts to fund MPO priority projects that are currently unfunded, such as the Greensboro Advanced Signal System project.

Surface Transportation Program, Direct Apportionment Funds

As a Transportation Management Area, the Greensboro Urban Area MPO has the authority to direct funds from its Surface Transportation Program, Direct Apportionment (STP-DA) to TIP projects. The TAC communicated its intent to do so to NCDOT by resolution on June 19, 2001. As a subset of the STP program, the STP-DA apportionment is not necessarily “new” money to the area. NCDOT has stated that the TIP shows the area’s STP-DA allocation spread across current projects in the program through 2010. Only additional STP-DA funds allocated to the area as a result of new federal Surface Transportation Program Reauthorization (TEA-3) could be considered “new” money. Such reauthorization is expected to occur around October, 2003.

MPO Staff has worked with the Program Development Branch of NCDOT and other TMAs in developing the state’s policy and guidelines for MPO direction of STP-DA funds. These guidelines largely address administrative topics such as project management procedures, incidental projects (modifications to otherwise programmed NCDOT TIP projects), and minimum cost thresholds for STP-DA funded projects. The goal of this process has been to determine a timetable and policy recommendations for MPO direction of the area’s STP-DA apportionment. On February 26, 2003, The TAC adopted a resolution stating that the MPO would begin directing its STP-DA obligation authority during the 2006-2012 TIP development cycle, starting with fiscal year 2005. A copy of this resolution is included in the Adopting Resolutions section.

Although the amount of STP-DA funds expected to be available to Greensboro in future years remains uncertain, several facts help to illuminate the situation. NCDOT has estimated Greensboro’s FY 2003 apportionment at approximately \$3.17 million, but the actual amount will be determined following passage of the FY 2003 federal appropriations bill in Congress. It is worth noting, however, that over the long-term,

About the MPO

Greensboro's STP-DA fund level will depend on the new federal Surface Transportation Program Reauthorization (TEA-3), which will determine STP-DA and overall surface transportation funding levels available to the MPO for FY 2004 and beyond.

How to Read the MTIP

Major Projects Map

The attached map folds out to depict the location of major TIP projects. The map key indicates the type of project and funding program. Each project is labeled with its unique identification code. Use this code when referring to the Major Projects Summary or TIP Tables.

Major Projects Summary

The Major Projects Summary provides project descriptions and schedules along with any changes in scheduling or implementation progress for each project. It is intended as an informational supplement to the MTIP tables in a more readable format.

Funding Elements

The MTIP funding elements are arranged into two categories: the Highway Element and the Public Transportation Element. The Highway Element includes two sub-categories: MPO Area Projects and Statewide Projects. The list of Statewide projects includes many that are significant within the MPO's planning area, in addition to those that are not. The Public Transportation Element also contains two sub-categories: Funded Projects and Unfunded Projects. The Unfunded projects list identifies the public transportation projects for which funds are not yet available, but which are GTA's and PART's priorities for future funding.

Highway Element

- Each project has its own identification code. The initial letter(s) indicates the funding source, while the digits that follow uniquely identify the project.
- Specific projects are listed by funding program. The interstate, rural, bridge, rail/highway grade-crossing and highway safety projects are listed in order of route number, while the urban program projects are listed alphabetically by city.
- Projects in the Intrastate or Urban Loop System are listed under the appropriate funding program, but are identified with an asterisk (*) following the project ID number.
- The fiscal years scheduled for planning and design are shown as FY. The type or phase of work is shown for each interstate, rural, and urban project. Right-of-way and construction phases of each project are shown as FFY (Federal Fiscal Year) or SFY (State Fiscal Year). The F or S designation is dependent upon the type of funding to be used for that particular phase of work. The cost of right-of-way and construction, and the anticipated funding sources are also listed.
- Highway projects frequently extend across MPO area boundaries in the Triad. When such situations occur, a project is listed in the TIP for both MPOs.
- The Secondary Roads Program (county construction) is not included in the MTIP. That program is developed annually by NCDOT and the Guilford County Board of Commissioners. The Small Urban Program, which is developed annually by NCDOT and municipal officials, is likewise excluded from the MTIP.
- The descriptions and maps for most projects are preliminary and subject to change. All major projects require extensive planning, and environmental impact and design studies. The location and exact type of improvements are subject to refinement and modification during the planning and design phases.

Highway Funding Categories

- The highway construction budget consists of the Federal Aid Construction Program, the Intrastate and Urban Loop Programs from the North Carolina Highway Trust Fund, and the proceeds from the sale of state highway bonds.

How to Read the MTIP

- The Federal Aid Construction Program consists of many funding categories. Funding in most of these categories is subject to overall federal budget constraints.
- When federal aid funds are used on a project eligible for Highway Trust Fund money, the Highway Trust Fund law allows an equal amount of funds to be transferred from the Highway Trust Fund to the State Highway Fund. The State Highway Fund may be used to cover state match requirements and to fund state construction projects.
- Highway funds are identified by the following programs:

KEY TO HIGHWAY AND AVIATION PROJECT PREFIXES

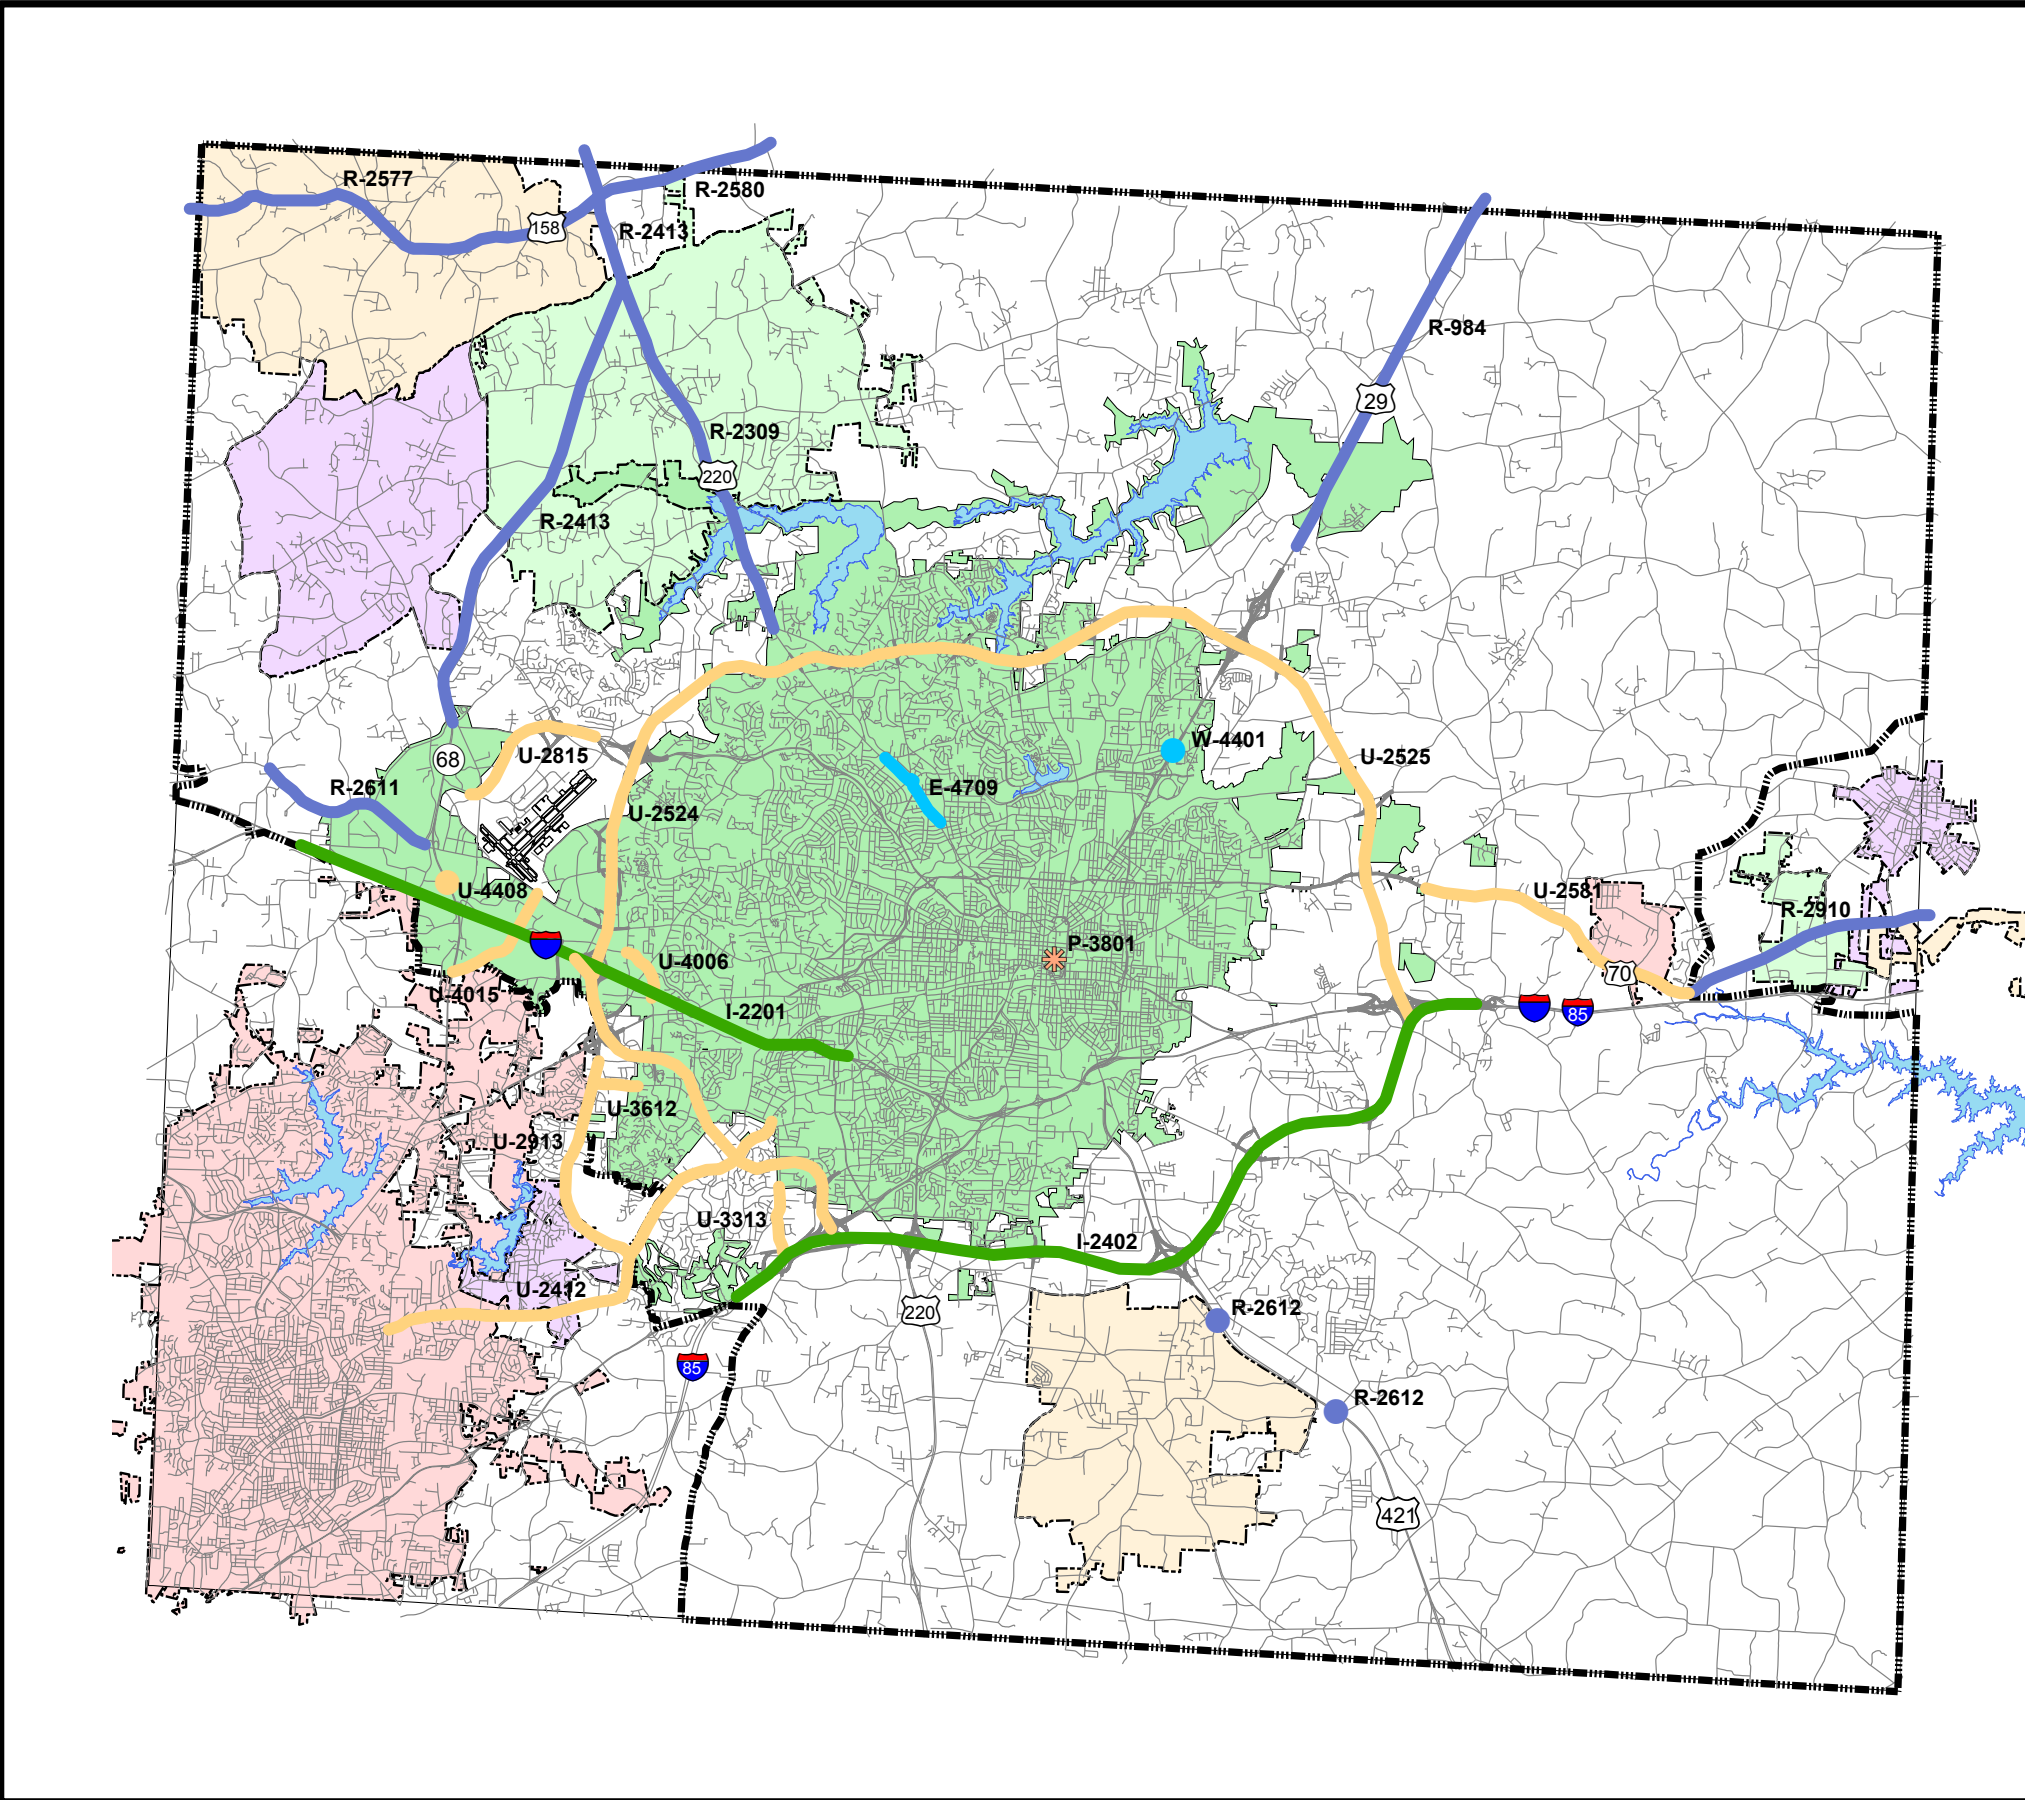

B	Bridge Replacement	P	Passenger Rail

Major Projects Summary

Final MTIP FY 2004 – 2010

TIP ID	Project Descriptions and Changes	Funding Schedule
New Projects		
C-4404	Establish 5 Regional Park and Ride Lots <i>New PART project; CMAQ funding flexed to FTA Section 5307.</i>	CST 04
E-4706	McKnight Mill Road Sidewalk. New Enhancement Project.	CST 04
E-4707	Southeast Greensboro Multi-Use Trail Connector. New Enhancement Project.	CST 04
E-4708	Landscaping at NC 68 / NC150 Intersection. New Enhancement Project.	CST 04
E-4709	Battleground Rail Trail from Pisgah Church Road to Markland Drive. Newly scheduled for funding. <i>Design phase underway.</i>	CST 04
I-4715	I-40/I-85 from US 29 to I-85 Bypass milling and resurfacing.	CST 07
R-4707	Eckerson Road Interchange - <i>Total Project Cost \$16,400,000.</i>	CST PY
U-4711	Greensboro Signal / ITS System Replacement - <i>Total Project Cost \$20,000,000.</i>	CST 08
Existing Projects		
I-2201	I-40 Widening from Squire Davis Road to Freeman Mill Road. <i>Completion expected Fall 2003.</i>	Under Construction
I-2402	Southern Urban Loop <i>Completion expected Fall 2003.</i>	Under Construction
U-2412	High Point Road Section A from US 311 Bypass to Manor Drive. <i>Delayed from ROW in 2004 and CST in 2006.</i> Section B from Manor Drive to Stanford Road. <i>Delayed from CST in 2008.</i> Section C from Stanford Road to Hilltop Road/Groometown Road.	ROW 05 CST 07 ROW 07-08 CST 09-PY ROW 05-06 CST 07-09
U-2524	Western Urban Loop <i>Total Project Cost decreased by \$7,400,000</i> Section A from I-85 to I-40. <i>On schedule.</i> Section B from I-40 to Bryan Boulevard. <i>Newly scheduled for funding.</i> Section C from Bryan Boulevard to Lawndale Drive. <i>Delayed from ROW in 2004 and CST in 2007.</i>	CST 04-07 CST 04-07 ROW 06 CST 09-PY
U-2525	Eastern Urban Loop Segment A from I-40/I-85 to US 70. Segment B from US 70 to US 29. <i>Newly scheduled for funding. ROW in 2005 moved to 2006, 2006 added to 2007.</i> Segment C from US 29 to Lawndale Drive. <i>Newly scheduled for funding.</i>	Complete ROW 06 CST 09-PY ROW 07 CST 10-PY
U-2581	US 70 Widening from Mt. Hope Church Road to Rock Creek Dairy Road.	ROW PY CST PY
U-2815C	Bryan Boulevard Relocation at PTIA <i>Total Project Cost increased by \$26.5 million.</i>	CST 04
U-2913	Guilford College Road <i>Total Project Cost increased by \$1,499,000</i> Section A relocation from Mackay to High Point Road. <i>On schedule.</i> Section B widening from Mackay Road to Ruffin Road. <i>Delayed from CST in 2004.</i> Section C widening and relocation from Ruffin Road to I-40.	ROW 03 CST 04-05 ROW 03 CST 05 Complete
U-3313	Groometown Road Widening from Vandalia/Wayne Road to Grandover/Wiley Davis Road. <i>Delayed from ROW in 2003.</i>	ROW 04 CST 06
U-3612	Hilltop Road Widening from Guilford College Road to Adams Farm Parkway.	ROW 04 CST 06

04, 05, etc. = Federal Fiscal Year 2004, FY 2005, etc.	CST = Construction.	ROW = Right of Way.	PY = "post year" funding: 2011 or later.

Introduction to Public Comments

The Public Comments consists of comments regarding the Draft MTIP, as submitted to the MPO before and during the advertised Public Comment Period. The comments are entered here in the order in which they were received, and are followed by the MPO's responses.

Public Comments

Transcript of comments made at the NCDOT Division 7 Draft STIP Public Meeting:

Sandy Carmany - I'll try to make it brief, as brief as I can. But I'm going to start off as chair of the Greensboro TAC MPO and I appreciate the opportunity to be here before you to present our thanks and a listing of our needs for the future. We appreciate this opportunity and want to express our gratitude to you Doug, and to you Mike and your staff for everything that you have done in the past to help Greensboro move forward with its transportation program.

I would like to talk about a couple of the major projects that are underway right now; that Interstate 40 widening project. We've seen tremendous progress. I was through there, past the Wendover-Patterson section on Monday evening and see that we have shifted two lanes of traffic and now can go off to the right on Patterson Street and was glad to see this and to see progress happening and am looking forward to having those three lanes open in December, in either direction. I think that will help a whole lot there.

Also, I'm pleased with the progress on our multi-modal transportation center. We hope to have the station renovation completed and GTA moved into the multi-modal center in late 2003 and looking forward to the track and rail platform improvements that will be complete in 2004, to allow Amtrak to move back in there. We want to especially thank the Public Transportation Division for their assistance in getting that funded, because this will be a centerpiece for the revitalization of downtown Greensboro.

Funding for GTA acquisition of total of 20 buses and ten vans is, also very much appreciated and this enables GTA to finally get rid of the last of our ADA non-compliant buses. So, we're going to be in compliance and legal now. And that's going to help us keep pace with the growing transit ridership in Greensboro.

Greensboro Urban Loop, we are appreciative that the I-40 to US 70 portion is complete and very pleased with the progress on the, I-85 Bypass. We had the opportunity to ride with—I think the only one of your staff members that's not here today, Mike Cowan—last week and had a tour of that section and everyone on the city council was very impressed with the progress and amazed with how much pavement has been put down already and looking forward to that opening. And, of course, that project is absolutely critical to Greensboro's future. We're still reviewing our priority projects but want to request a few priorities to be included in the TIP and that includes the Greensboro Urban Loop. As has been mentioned already, it's important to accelerate funding for that northern section of the loop if possible, and to get that connection down to US 70 as well, as well as trying to keep all those other sections on schedule. I know that's a juggling act and I want to thank you Doug for the miracles you have worked in getting some of that moving. Also with the loop, there are two interchanges that appeared on the original plans but at this point are not funded that we feel are very critical to our needs. The first is the Fleming/Lewiston Road interchange and this one is important because of the distance between the interchanges on that western section of town and we think this would give us a significant boost in connectivity if we could get the Fleming/Lewiston interchange in there. And the second one is proposed interchange with the Cone Boulevard Extension. One of the city council's strong priorities has been to push development towards the east in Greensboro and the city's comprehensive plan is also moving in that direction and this interchange at Cone is going to be critical to move that forward.

One that, Doug, I've talked to you about several times; we still have great concerns about the lag in time when the southern/western urban loop is completed and the High Point Road connection is going in there. I represent that area of town and the business and merchants on High Point Road are already feeling some deep distress in their drop in business and what's going on there and they are very concerned there that this could be a significant blow to them, if there was a failure to have that interchange completed in near unison with the loop. So whatever we can do to bring those two to completion in close proximity to each other would be very much appreciated.

Public Comments

Also we would like to establish funding for the Greensboro signal system replacement. We need to do a complete replacement of communication lines with optical fiber, as well as replacement of the central control hardware. This would allow traffic-responsive signal timing throughout the city, facilitate our transit operations and benefit the entire region by, reducing traffic congestion and getting folks through Greensboro quicker.

There are two former priority needs that are now funded and we hope to keep those on schedule and those are the West Market Street widening, which is R-2611, and the Bridford Parkway Extension from Hornaday Road across 40 to Swing Road.

We have two major planning efforts underway in the MPO. That's the airport area transportation study and the update of the Greensboro Urban Area Thoroughfare Plan. So we're looking forward to working with NCDOT staff, in bringing those to completion and ah, coming up with some effective solutions to the problems that we're experiencing there. So that's it from the TAC chair.

If I can switch hats now just very quickly to, to chair PART, Piedmont Regional, Piedmont Authority for Regional Transportation. Want to thank you again for the tremendous support that we have received from NCDOT in helping us get off the ground as well as funding for, for many of the projects that, that we have going. We're pleased to report that we got the regional bus system up and running, which kicked off on September 30th. It's estimated we would have 75 riders, and we'd be ecstatic if we had a hundred that first day. We carried 431. The past two weeks, we've carried over 3,300 passengers and this past Friday we actually surpassed our first day's ridership with over 450 riders. So we are quite pleased with the response that we have gotten from the public on that. And we really appreciate the listing of PART projects totaling \$345 million in the TIP and for assisting us with the \$2 million in federal funding. I can tell you that we've been meeting with Representative Coble and Byrd up in Washington to make sure that we get on that New Starts list for some future projects and will be having public hearings next week to reveal the final draft recommendations on the Regional Fixed Guideway Major Investment Study looking at regional transportation, whether we need to go with commuter rail, rapid transit or a combination of those. So we've got a lot of work to do but, we're looking forward to working with you to get it done. Thank you.

Public Comments

Comments submitted directly to the MPO by representatives of Rockingham County:

RESOLUTION SUPPORTING ROCKINGHAM COUNTY'S HIGHWAY PRIORITIES OF INCLUSION IN THE TRANSPORTATION IMPROVEMENT PROGRAM OF THE STATE OF NORTH CAROLINA

WHEREAS, The State of North Carolina Department of Transportation has requested public officials to submit preferences as to priorities of projects to be scheduled in the Transportation Improvement Program, and;

WHEREAS, Rockingham County is geographically the largest county in Division 7 with nearly 600 square miles, and;

WHEREAS, the primary concerns of local officials regarding transportation are first, the safety of our citizens using state and federal highways, and; second, the adequacy of the roads which connect local areas to each other and to the region to accommodate existing and future demands, and; third, the opportunity to share in the economic prosperity of the region by improving the quality of the county's major routes, and;

WHEREAS, The Transportation Committee and the Rockingham County Board of Commissioners believes that a good highway system is vital to the mutual benefit of all the citizens of Rockingham County.

NOW, THEREFORE, BE IT RESOLVED, that the Rockingham County Board of Commissioners go on record as endorsing and recommending to the North Carolina Department of Transportation the published priorities for inclusion in the upcoming Transportation Improvement Program with the following alterations, and additions:

REGIONAL PROJECTS

CRITICAL NEEDS

- R-2413 Set schedule and funding for construction and possible design build for widening multi-lane connector, on new location from NC 68 to US 220 and Multi-lane US 220 to NC 68 for completing before 2007.
- *By connecting the northern portion of North Carolina and Southern Virginia to the Piedmont Triad Airport an opportunity exists to enhance the position of the airport as regional player in economic development in the Piedmont Triad Region and to link these counties to the economic opportunities provided by Fed Ex.*

URGENT REQUESTS

- R-2580 Set schedule and funding for multi-lane connector of US 158 for engineering and construction from US 29 Bus (Freeway Drive) to US 220 and connect to future I-73.
- R-2586 Set Schedule for US 158 for engineering and construction from US 29 at NC 14 to NC 62 in Yanceyville. Widen to Multi-lanes.
The widening of US 158 from Winston Salem to the Coast was one of the original projects in the Highway Trust Fund legislation. The completion of this project from the intersection of US 158 and US 220 to Yanceyville would help two counties that have suffered economic losses due to the decline of textiles and tobacco.
- R-4402 Set Schedule and funding for the widening of N.C. 14 from Meadow Road in Eden to US 220 in Virginia
The widening of NC 14 from Eden to Virginia will give an alternative route for truck traffic from Virginia to the eastern side of Greensboro thus providing a critical link, as the I73 corridor is developed.

Public Comments

PRIORITY REQUESTS

- U-2524C Painter Boulevard - Set schedule and funding for construction and design build for Urban Loop (Section C) US 29 to US 70.
- R-2560 Reaffirm support for the widening of N.C. 87 from Reidsville to Burlington

COUNTY PROJECTS

URGENT REQUESTS

- U-3326 Move up the schedule for the widening of US 29 Business (Freeway Drive).
- Set schedule and funding for US Hwy 29 for engineering and construction from Greensboro to the NC /VA line to be retrofitted from a US Hwy to I-785.

SAFETY CONCERNS

- B-4622 Move up the schedule for the replacement of Bridge No 54 on NC 65 at Rock House Creek.
- B-4252 Aligning of Island Drive (SR 1169) with Lindsey Bridge Road (SR 1138) during reconstruction of Bridge No. 95 and Bridge No. 67 in Madison.

FEASIBILITY STUDIES

- Harrington Highway Extensions: North to Westerly Park Road and East to Quesinberry Road.
- Realignment of Chief Martin Road and Piedmont Drive and extending it to Island Drive in Madison.
- Stop Light feasibility study for intersection of Hwy 311 and Island Drive.

Chairman
Rockingham County Board of Commissioners

Attest: _____
W. Eugene Russell
Assistant Clerk to the Board

Public Comments

R-2413 US 220 to NC 68 Connector

Rockingham County has identified this connector to be the most urgent transportation need of the County. We also believe that this project is very important to the economy of Greensboro and Guilford County. The R-2413 project is part of a much larger project to establish the I-73 Interstate route.

Why is this project important to Rockingham County?

At present western Rockingham County does not have direct four lane access to I-40, PTI airport or the Federal Express terminal scheduled to be open in 2007. Rockingham County stands to benefit significantly from its proximity to these facilities if it has better access. The R-2413 project provides this needed four lane linkage but is only section C of this project is scheduled to be completed during the next six years.

Rockingham County is one of the hardest hit counties in the state in terms of job loss and has recently been downgraded to a Tier II county. The State of North Carolina has identified Rockingham County as one of ten counties targeted for special economic assistance under the 21st Century initiatives program. Rockingham County is taking positive steps to improve its economy but is hindered significantly by the lack of direct access to I-40, the PTI airport and the Federal Express facility. Counties with direct access to interstate routes have tended to prosper while counties without interstate proximity have not. This project provides this proximity.

Why is this project important to Greensboro, Guilford County, PTI and Federal Express?

The entire Greensboro region has recently experienced economic slowdown much of which is structural. Greensboro needs to clearly reestablish it's self as a transportation center. Certainly the Federal Express facility is a major step in this direction. Both Federal Express and PTI airport need ground transportation accessibility to be successful. The bottlenecked NC 68 and US 220 routes hinder accessibility to these facilities. The R-2413 connector greatly improves northern accessibility and opens these facilities to greater markets for passengers and commerce. This route also helps to establish the I-73 corridor which will enhance Greensboro's position as a transportation hub.

Greensboro Urban Loop and Interchanges

- ① Construction Starts July 2002 (I-40 to Bryan Blvd.)
- ② Bids accepted 2003 (I-85 to I-40)
- ③ Under construction. Opens late 2003. On schedule (I-85 to I-84/40)
- ④ Open for traffic. (US 70 to I-85/40)
- ⑤ Construction after 2008 (Bryan Blvd. to US 70)

U-2524C Painter Boulevard– Set Schedule and funding for construction and design build for Urban Loop (Section C) US 29 to US 70.

Public Comments	
-----------------	--

R-2413

Set schedule and funding for construction and possible design build for widening multi-lane connector, on new location from NC 65 to US 220 and Multi-lane US 220 to NC 68 for completing before 2007.

MPO Responses to Public Comments

Response to Comments by TAC Chair Sandy Carmany:

The comments of the TAC Chair represent the MPO, and as such, require no response here.

Response to Comments by Rockingham County:

The MPO concurs that the US 220/NC 68 Connector and Northern/Eastern Greensboro Urban Loop are important projects with substantial regional benefits. The MPO has taken formal action requesting acceleration of the Northern/Eastern Urban Loop in the past. Further evaluation of these projects among the MPOs priorities will coincide with the preparation of the Transportation Systems Plan and the MPO priority needs list later in 2003.

MTIP Project Changes

Metropolitan Transportation Improvement Program FY 2004 - FY 2010

Adopted	June 25, 2003
Amended	July 23, 2003
Amended	October 29, 2003
Amended	November 19, 2003
Amended	July 22, 2004
Amended	August 25, 2004

Introduction to MTIP Project Changes

This section lists changes to major MTIP projects from the MTIP FY 02-08 to the MTIP 04-10. In the table that follows, the column labeled “ Δ ” indicates whether project schedule changes were due to project development factors (denoted by the letter “P”) or due to funding related factors (denoted by the “\$” symbol).

Project Changes in Final 04 – 10 MTIP, versus 02 – 08 MTIP

TIP ID	Project Descriptions and Changes	Funding Schedule	Δ
Projects Under Construction			
I-2201	I-40 Widening from Sandy Ridge Road to Holden Road. <i>Completion expected Fall 2003.</i>	Under construction.	
P-3801	Track and Station Rehabilitation. The Depot (MMTC) renovations and mainline track relocation.	Under construction.

Adopting Resolutions

Metropolitan Transportation Improvement Program FY 2004 - FY 2010

Adopted	June 25, 2003
Amended	July 23, 2003
Amended	October 29, 2003
Amended	November 19, 2003
Amended	July 22, 2004
Amended	August 25, 2004

Introduction to Adopting Resolutions

This section includes:

- The signed resolution by which the MPO states its intention to begin directing its STP-DA obligation authority during the 2006-2012 TIP development cycle, starting with fiscal year 2005.
- The signed resolution by which the MPO approves the Revised MTIP for State Purposes.
- The signed resolution by which the MPO officially adopts the final draft of the MTIP.

RESOLUTION OF INTENT TO DIRECT STP-DA OBLIGATION AUTHORITY BY THE GREENSBORO URBAN AREA METROPOLITAN PLANNING ORGANIZATION

A motion was made by TAC Member Robbie Perkins and seconded by TAC Member Don Vaughan for the adoption of the following resolution, and upon being put to a vote was duly adopted.

WHEREAS, the USDOT designated the Greensboro Urban Area MPO as a Transportation Management Area (TMA) in 2002; AND

WHEREAS, the Surface Transportation Program Direct Apportionment (STP-DA) obligation authority is an element of the Federal-Aid Highway Program that is annually made available for obligation in each TMA; AND

WHEREAS, the MPO may elect to direct this obligation authority to a range of area transportation needs subject to the provision of local matching funds when called for by NCDOT policy or other arrangements as may be reached; AND

WHEREAS, the MPO took action establishing its intent to direct STP-DA funds, in a resolution adopted August 29, 2001; AND

WHEREAS, the MPO has substantially reviewed STP-DA program and policy issues and has cooperated with the NCDOT and others in the development of NCDOT's guidance for the administration of STP-DA funds among North Carolina TMAs; AND

WHEREAS, a portion of the Greensboro Urbanized Area lies within the planning area of the High Point MPO;

WHEREAS, NCDOT has requested notice of the MPO's intent to direct the STP-DA allocation during the FY 2006-2012 Transportation Improvement Program development cycle; AND

NOW THEREFORE, be it resolved that the Greensboro Urban Area Metropolitan Planning Organization hereby notifies the NCDOT that:

1. The MPO intends to direct the TMA's STP-DA obligation authority during the 2006-2012 TIP development cycle, beginning with FY 2005, in a manner consistent with NCDOT Policy and Program Guidance.
2. STP-DA obligation authority attributable to that portion of the Greensboro Urbanized Area that lies inside the High Point Metropolitan Area will be made available to the High Point Urban Area MPO to direct in a manner to be determined through further consultation..
3. The MPO will consult with NCDOT regarding timing, procedures, impacts, and other issues relative to the successful direction of STP-DA obligation authority.

I, Sandy Carmany, TAC Chair
(Name of Certifying Official) (Title of Certifying Official)

do hereby certify that the above is a true and correct copy of an excerpt from the minutes of a meeting of the Greensboro Urban Area TAC duly held on this, the 26th day of February, 2003.

Sandy Carmany
Chair, Transportation Advisory Committee

Subscribed and sworn to me this, the 26th day of February, 2003.

**RESOLUTION APPROVING THE GREENSBORO URBAN AREA
METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAM,
FY 2004 – 2010 FOR STATE PURPOSES**

A motion was made by TAC Member Keith Holliday and seconded by TAC Member Don Vaughan for the adoption of the following resolution, and upon being put to a vote was duly adopted.

WHEREAS, the North Carolina Department of Transportation has requested MPO approval of the Metropolitan Transportation Improvement Program FY 2004-2010 (MTIP) for the purposes of developing the Statewide Transportation Improvement Program; AND

WHEREAS, the Transportation Advisory Committee anticipates adopting the MTIP along with a Conformity Finding in Summer 2003, in accordance with Federal transportation planning requirements and procedures; AND

WHEREAS, the Greensboro Urban Area Metropolitan Transportation Improvement Program is a subset of the currently conforming Long Range Transportation Plan, dated August 29, 2001; AND

WHEREAS, the Transportation Advisory Committee has reviewed the schedule and status of the transportation projects included in the 2004-2010 MTIP.

NOW THEREFORE, be it resolved, by the Greensboro Urban Area Transportation Advisory Committee, that the Metropolitan Transportation Improvement Program for FY 2004 - 2010 be approved for Statewide Transportation Improvement Program development purposes on this, the 19th day of March, 2003.

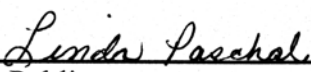

I, Sandy Carmany, TAC Chair
(Name of Certifying Official) (Title of Certifying Official)

do hereby certify that the above is a true and correct copy of an excerpt from the minutes of a meeting of the Greensboro Urban Area TAC duly held on this, the 19th day of March, 2003.

Chair, Transportation Advisory Committee

Notary Public

My commission expires 8-13-03.

**RESOLUTION ADOPTING THE FINAL GREENSBORO URBAN AREA
METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAM FY 2004 - FY 2010**

A motion was made by TAC Member Bob Landreth and seconded by TAC Member Robbie Perkins for the adoption of the following resolution, and upon being put to a vote was duly adopted.

WHEREAS, the Transportation Advisory Committee has found the Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner in accordance with 23 U.S.C. and 49 U.S.C. 1607; AND

WHEREAS, the Transportation Advisory Committee has found that the Transportation Improvement Program conforms to the purpose of the North Carolina State Implementation Plan for maintaining the National Ambient Air Quality Standards in accordance with 40 CFR 51 & 93; AND

WHEREAS, the Transportation Advisory Committee has found the Transportation Improvement Program to be in full compliance with Title VI of the Civil Rights Act of 1964 and Title VI Assurance executed by each State under 23 U.S.C. 324 and 29 U.S.C. 794; AND

WHEREAS, the Transportation Advisory Committee has considered how the Transportation Improvement Program will affect the participation of Disadvantaged Business Enterprises in FHWA and FTA funded projects (Sec. 105(f), Pub. L. 97-424, 96 Stat. 2100, 49 CFR part 23); AND

WHEREAS, the Transportation Advisory Committee has considered how the Transportation Improvement Program will affect elderly and disabled persons, in compliance with the Americans With Disabilities Act of 1990 (Pub. L. 101-336, 104 Stat. 327, as amended) and the U.S. DOT implementing regulations; AND

WHEREAS, the Greensboro Urban Area Metropolitan Transportation Improvement Program is a subset of the currently conforming Long Range Transportation Plan; AND

WHEREAS, the Transportation Plan has a planning horizon year of 2025, and meets all the requirements for an adequate Transportation Plan; AND

WHEREAS, the Transportation Advisory Committee has provided for a 30 day public comment period for the proposed Transportation Improvement Program; AND

WHEREAS, the Transportation Advisory Committee has solicited public and private transportation provider comments; AND

WHEREAS, the Transportation Improvement Program, for years one through three, will serve as the project selection document for transportation within the Greensboro Urban Area Metropolitan Area Boundary, and the NCDOT may move projects and phases of projects without additional programming or project selection approval by the MPO within that three-year period, providing that air quality conformity and financial constraint criteria are still met.

NOW THEREFORE be it resolved by the Greensboro Urban Area Transportation Advisory Committee that the Metropolitan Transportation Improvement Program for FY 2004 - FY 2010, dated June 25, 2003, be adopted for the Greensboro Urban Area Metropolitan Planning Organization on this, the 25th day of June, 2003.

I, Sandy Carmany, TAC Chair
(Name of Certifying Official) (Title of Certifying Official)

do hereby certify that the above is a true and correct copy of an excerpt from the minutes of a meeting of the Greensboro Urban Area TAC duly held on this, the 25th day of June, 2003.

Sandy Carmany
Chair, Transportation Advisory Committee

Subscribed and sworn to me this, the 25th day of June, 2003.

Marcel A. Edwards
Notary Public

My commission expires 11/9/03.
